

Crater Eliminator

An additive to use in the prevention or elimination of cratering/fisheyes in EX-2C Topcoat.

Product Features

- ◆ Helps prevent cratering/fish eyes

Theoretical Solids

Content:

Volume: N/A

Shelf Life*

Single Component: (1) year

*For unopened product.

Suitability

Endura Crater Eliminator is supplied to aid in the prevention or reduction of craters/fisheyes in Endura Topcoats. It also helps to reduce color floating.

Do not use in any primers or sealers.

- ◆ use in each coat of topcoat
- ◆ use whenever small or incidental craters appear
- ◆ use whenever color flotation appears

Causes of Cratering

1. Surface contaminants: gas, diesel, and diesel exhaust silicones and wax containing silicones lubricants and aerosols containing lubricants.
2. Contaminated air supply lines

Consequences of Excessive Use

1. Increased cratering
2. Loss of inter-coat adhesion
3. Less U.V resistance

Mixing Ratio

Use 10 to 14 ml per mixed liter of product (~0.5 oz per quart)

*Intended for use with Endura EX-2C topcoat only.
