

ERASE

graffiti remover

Endura Erase is specifically designed to quickly and safely remove graffiti. It uses physical energy released by chemical reactions to break the bonds of the graffiti, removing it from the surface.

Quickly and safely remove graffiti from painted surfaces.

Removes:

- Spray paint
- Ball point pen
- Marker
- Wax crayons

Endura Erase is available in two formulations:
Erase Flow: low viscosity for spray applications
Erase No Drip : anti sag for vertical wall applications

Environmentally friendly formulation can be used on all Endura EX-2C based Topcoats or on Endura Epoxy Primers.

Waterbourne formula

Biodegradable

Lead and Mercury free

Phosphate free

TAPs and HAPs free
